

TEMITOPE WILLIAMS

Product Designer & Product Lead

Accra, Ghana | +233 598 822 108 | temitope.williams@email.com | linkedin.com/in/temitopewilliams

PROFESSIONAL SUMMARY

Product Designer and Product Lead with 7+ years of experience designing, launching, and optimizing digital products across SaaS, FinTech, enterprise, and B2B platforms. Experienced in leading product initiatives from discovery and problem definition through user research, product strategy, UX/UI design, prototyping, development collaboration, launch, and continuous optimization. Strong track record of translating complex business and user needs into intuitive, scalable product experiences that drive adoption, conversion, retention, and operational efficiency. Experienced in cross-functional collaboration with engineers, product stakeholders, and business teams, with a data-informed approach to product decisions, experimentation, and user experience optimization.

PROFESSIONAL EXPERIENCE

Product Lead / Product Designer — FacilityBills Technology

Lagos, Nigeria | December 2024 – Present

- Lead product design and product development initiatives for a B2B billing SaaS platform, translating business objectives and customer needs into product solutions and end-to-end user experiences.
- Own product initiatives from discovery and problem definition through user flows, wireframes, prototyping, development collaboration, release, and post-launch optimization.
- Delivered 3 major product feature releases within 6 months, working cross-functionally with engineering and stakeholders to drive timely product delivery.
- Contributed to a 35% increase in paying customers and a 28% reduction in onboarding drop-off through UX improvements and product optimization.
- Designed and optimized onboarding experiences, using experimentation and A/B testing to improve conversion by 20% and strengthen user retention.
- Used AI-assisted development and rapid prototyping tools including Cursor and Replit to validate product concepts and build interactive prototypes within 48 hours.
- Collaborated closely with engineering to translate product requirements and design specifications into scalable, high-quality product experiences.

Product / UI/UX Designer — Bluespace Technology

Accra, Ghana | March 2025 – March 2026

- Led end-to-end product design for 2 client platforms from discovery and concept through launch, contributing to \$180K+ in new annual recurring revenue.
- Translated business requirements, user needs, and product objectives into intuitive user flows, wireframes, prototypes, and production-ready interfaces.
- Built and maintained a scalable design system with 40+ reusable components, reducing design-to-development handoff time by 35% and UI inconsistencies by 60%.
- Partnered with engineering throughout implementation and design QA, reducing production bugs by 45% and contributing to a 4.6/5 client satisfaction score.
- Collaborated with stakeholders and development teams to prioritize design solutions, resolve UX issues, and ensure successful product delivery.

Senior Product / UI/UX Designer — NodeScale

Lagos, Nigeria | June 2023 – July 2024

- Owned product design for web and mobile applications serving 10,000+ active users, delivering 8 major product releases on schedule.

- Led UX design across the product lifecycle, from user flows and wireframes through prototyping, implementation, testing, and optimization.
- Built a comprehensive design system adopted across 3 product teams, improving design consistency and cross-functional delivery efficiency.
- Used A/B testing and product insights to identify opportunities for improving user experience and reduced churn from 12% to 8.5%, contributing an estimated \$120K in annual revenue impact.
- Mentored 3 junior designers, improving team productivity by 25% and design quality scores by 18%.
- Collaborated with product, engineering, and business stakeholders to translate requirements into scalable product experiences.

UX Designer — Univasa

Lagos, Nigeria | October 2024 – December 2024

- Designed UX for digital financial services, defining platform vision through user research and competitive analysis.
- Created wireframes, prototypes, and design specs; worked closely with engineering to deliver on schedule.
- Established design KPIs and ran A/B tests to optimize conversion rates and drive user engagement.

Product / UI/UX Designer — VoltWolf

Lagos, Nigeria | August 2022 – February 2025

- Owned UX design and prototyping for FinTech and enterprise client engagements; delivered all projects on time.
- Designed interfaces for payment integrations, prototyping complex financial workflows.
- Implemented design QA frameworks that elevated delivery standards and client satisfaction scores.

UX Designer — Veegil

Lagos, Nigeria | June 2022 – 2024

- Designed user experiences for complex digital products across the product lifecycle.
- Created performance dashboards and tracked design KPIs, presenting product insights to leadership.
- Identified UX risks and usability issues proactively, supporting successful product releases.
- Collaborated with cross-functional teams to deliver product milestones on schedule.

Senior UI/UX Designer — Hash-greed

Lagos, Nigeria | June 2021 – February 2022

- Led UX design across the full product lifecycle, shipping 4 products from discovery to launch within 8 months.
- Created wireframes, prototypes, and design specifications, reducing engineering rework by 30%.
- Established design systems that improved product consistency by 45%.
- Collaborated with engineering and stakeholders to translate product requirements into scalable experiences.

UI/UX Designer — Imperotechnne

Lagos, Nigeria | November 2020 – June 2021

- Analyzed user feedback and behavioral data to identify product and UX improvement opportunities.
- Created user flows, wireframes, and interactive prototypes for web-based products.
- Collaborated with developers to deliver production-ready interfaces.
- Conducted customer journey mapping to identify friction points and optimize user flows.

Product Designer — Lazynerd (Freelance / Personal Brand)

Lagos, Nigeria | July 2019 – 2024

- Designed and launched 6 digital products from 0→1, contributing to 150% year-over-year revenue growth.
- Led product discovery, UX strategy, user flows, prototyping, and interface design across web and mobile products.
- Applied iterative design and user-centered methodologies to improve task completion rates by 22%.
- Collaborated with engineering using Agile/Scrum, Jira, and Confluence to deliver products from concept to launch.
- Established design QA processes to maintain consistency and implementation quality across products.

CORE COMPETENCIES

Product: Product Strategy · Product Discovery · Product Development · Product Roadmapping · Feature Prioritization · Product Requirements · Product Analytics · Product Optimization · 0→1 Product Development · Go-to-Market Collaboration

Research & UX: User Research · User Interviews · Usability Testing · Customer Journey Mapping · User Personas · Information Architecture · User Flows · UX Strategy · Interaction Design

Design: Product Design · UI/UX Design · Wireframing · Prototyping · Design Systems · Responsive Design · Design QA · Visual Design · Accessibility

Experimentation & Analytics: A/B Testing · Conversion Rate Optimization · User Retention · Product Metrics · UX Metrics · Behavioral Analytics · Mixpanel · Amplitude · Tableau

Collaboration & Leadership: Cross-functional Leadership · Stakeholder Management · Engineering Collaboration · Agile · Scrum · Design Reviews · Mentorship · Project Management

Tools: Figma · Adobe XD · InVision · Jira · Confluence · Notion · GitHub · GitLab · Cursor · Replit · Lovable · ChatGPT · Claude

EDUCATION & CERTIFICATIONS

- B.Sc. Computer Science — National Open University of Nigeria, 2021
- Project Management Professional (PMP) — Project Management Institute, 2024
- Certified Scrum Master — Scrum Alliance, 2022
